

YOUR PARTNER FOR SUSTAINABLE
AIR POLLUTION CONTROL ALL OVER THE WORLD

www.luehr-filter.com

**CONVINCING TECHNOLOGY.
CHALLENGING TASKS.
CLEAN AIR.**

LUEHR FILTER is a worldwide acting family-owned company with more than 80 years of experience. As technology leader in the field of air pollution control we are your competent partner with individual solutions for sustainable environmental protection.

YOU ARE AN EXPERIENCED

SERVICE TECHNICIAN (M/F/D)

and you will take on the support of our customers in South Germany and the bordering neighbouring countries.

WHAT TO BE EXPECTED:

- Inspection of our plants for air pollution control
- Air-related and mechanical inspection of fans, isolation- and control dampers, transport devices, filters and belonging cleaning devices, additive powder storage- and dosing devices
- Repair and trouble shooting
- Preparation of service reports for the competent departments in the head office
- Contact person for our local customers
- Technical and organisational co-operation with our sub-suppliers
- Professional instruction of operating personnel
- Exchange of gained experiences for constant improvement of our products

YOUR PROFILE:

- Completed apprenticeship in the mechanical or environmental field (plant mechanics, environmental engineer)
- Readiness to travel at home and abroad, driving licence class B
- Experiences in the field of service inspection and measurement technology preferable
- Ideally industry knowledge of air pollution control and upstream processes
- Friendly appearance and good communication skills
- Good knowledge of the written and spoken English language
- Well-advanced skills in MS Office applications

We offer a modern working environment with various development opportunities, flat hierarchies and close contact to the customer. You can expect an open, co-operative atmosphere on equal terms. Lateral thinking and your own ideas welcome.

Use your know-how and let's shape the future together!

Please submit your application documents with indication of the earliest possible starting date and your desired salary as pdf-file to bewerbung@luehr-filter.com
